What is the right of cancellation when registering a domain?

Agent - 2021-08-02 - Legal

As a registrar, domain name orders are often taken by filling in a form on the website, by telephone or by e-mail. Accordingly the Swedish Distant Sales and Door-to-Door Sales Act (2005:59) applies. Each individual registrar is responsible for creating appropriate procedures for the right of cancellation in conjunction with the registration of a domain name.
