What does the EPP message look like which is sent from your EPP server to the leaving registrar when a Registrar Transfer has been made?

A.A - 2024-10-31 - EPP messages

The EPP message sent from our EPP server to the *leaving* registrar when a *Registrar Transfer* has been made is formulated as below. A `<iis:transferNotify />` is sent to the *submitting* registrar when a domain has changed registrar and contains *trnData* for a domain or host.

```
