## What does the EPP message look like that the EPP server sends to the leaving registrar during Registrar Transfer?

Agent - 2024-09-06 - EPP messages

Please find below the format of the EPP message that is sent from our EPP servers to the leaving registrar during a Registrar Transfer.

When a domain changes registrar, a message called <iis:transferNotify /> is sent to the previous registrar. This message includes the trnData for the domain or host.
